

DAFTAR RIWAYAT HIDUP

PROFIL

NAMA	:	Prof.Dr.Ir. Moch. Dawam Maghfoer, SU.
NIP / NIDN	:	195707141981031004 / 0014075704
EMAIL	:	mdm-fp@ub.ac.id
MK YANG DIAMPU	:	1. Fisiologi Tumbuhan 2. Ekofisiologi Tanaman 3. Nutrisi Tanaman 4. Dasar Budidaya Tanaman 5. Budidaya Tanaman Tanpa Tanah 6. Teknologi Produksi Tanaman

RIWAYAT PENDIDIKAN

1976 - 1981	S1	Universitas Brawijaya
1983 - 1986	S2	Universitas Gadjah Mada
1997 - 2003	S3	Universitas Padjadjaran

PUBLIKASI

JURNAL	THN	ARTIKEL
Journal of Hunan University Natural Sciences	2021	Graft Union Formation Processes in Tomatoes as a Scion onto Eggplant Rootstocks: An Anatomical Study
Journal of Hunan University Natural Sciences	2021	Enhancement of Eggplant Production in Intercropping Systems through Integrated Nutrient Management
International Journal of Agronomy	2021	Analysis of Plant Growth and Yield in Varieties of Tomato (<i>Solanum lycopersicum</i> L.) Grafted onto Different Eggplant Rootstocks
AGROMIX	2021	Pengaruh sistem monokultur dan tumpangsari antara sayuran dan <i>Crotalaria juncea</i> L. terhadap akumulasi Pb, biomassa, dan hasil tanaman
JDMLM	2020	The use of citric acid and NPK fertilizer to enhance phytoextraction of nickel by Bajo starfruit plant (<i>Sarcotheca celebica</i> Veldk.)
Journal of Degraded and Mining Lands Management	2020	Accumulation of Pb in Chinese cabbage (<i>Brassica rapa</i>) and bean (<i>Phaseolus vulgaris</i>) from the use of fertilizer and pesticide
Advances in Engineering Research	2020	The Effect of Pb Sourced Application on the Growth and Yield of Vegetable Crops
Jurnal Produksi Tanaman	2020	Pengaruh Konsentrasi Nitrogen pada Pertumbuhan dan Hasil Dua Kultivar Tanaman Selada (<i>Lactuca sativa</i> L.) dengan Sistem Hidroponik

JURNAL	THN	ARTIKEL
AGROMIX	2020	Effect bulking agent on composting mexican sunflower (<i>Tithonia diversifolia</i> L) biomass and utilization on pak choi production
BIOSCIENCE RESEARCH	2019	The effect of dolomite and potassium to uptake of NPK and tuber weight loss of shallots in peatland
BIOSCIENCE RESEARCH	2019	Study on morphological and physiological characters of Ponda merah accession against drought and shade stresses
BIOSCIENCE RESEARCH	2018	Effect of grafting using wild eggplant as rootstock on growth and yield of four eggplant (<i>Solanum melongena</i> L.) cultivars
AGRIVITA	2018	A Study of the Efficacy of Various Nutrient Sources on the Growth and Yield of Cabbage
BIOSCIENCE RESEARCH	2018	Temperature control technology in broccoli plants through intercropping and crop <i>Crotalaria juncea</i> in the lowlands of Timor Island
BIOSCIENCE RESEARCH	2018	Response of Gorontalo Local Upland Rice Toward Drought Stress and Low Intensity of Light During Germination
IFRJ	2017	Influence of mulch and plant spacing on yield of <i>Solanum tuberosum</i> L .cv. Nadiya at medium altitude
AGRIVITA	2017	The Influence of Organic and Inorganic Fertilizers on the Growth and Yield of Green Bean, <i>Phaseolus vulgaris</i> L. Grown in Dry and Rainy Season
International Journal of Biosciences (IJB)	2016	Selection of potato varieties (<i>Solanum tuberosum</i> L.) mn midlands and the effect of using biological agents
